### Calculations for Measures

MEASURE	DESCRIPTION AND HOW IT WAS CALCULATED
Graduation (BBA)	The graduation rate is equal to the total number of students that graduated nominally in 2023-2024, divided by the number of students that were forecasted to graduate nominally.
Graduation (AD)	The graduation rate is equal to the number of students that passed the AD-exam, divided by the total number of students that took part in the AD-exam.
Graduation (MBA/ MoA)	The graduation rate is equal to the number of students graduated within 5 years after the matriculation date of the program, divided by the number of students enrolled in the program.
